DAY
COLLECTION

DAY

Customisation is key to the Krieder Day Collection. Our elements are modular, versatile and multiform to allow the creatation of different solutions that will fit into all types of architecture. All complete in unique designs and un-paralled quality.

Logiko Elements

Floor-standing, suspended, wall fitting and matched with a range of base units, Logiko storage units offer a full choice of sizes and functions with which to furnish any room, reflecting new trends and incorporating into the design technological solutions such as wireless recharging and IR transmission systems.

Contigo Wall Units

The Contigo system completes living room decor with its open units featuring a 45° cut structure and front edges worked to create a lighter effect. Illuminated glass shelves, mirror back panels and drawers with eco-leather fronts are just some of the elements available to enhance the units and provide plenty of scope for compositions.

Holdy Wall Units

Holdy is an open wall unit system that brings together minimalist good looks and composition flexibility. The distinguishing feature of the project is the absence of vertical structural elements, which creates a sense of airiness.
The system has sliding doors on tracks incorporated into the shelves to ensure maximum silence and essential styling.

Logiko Bookcase

Logiko is a system of floor-standing, horizontal and wall fitted bookcases that makes use of a wide choice of elements to meet needs for functionality and design: Raster units, showcases and illuminated details, extra long shelves, sliding doors, TV panels and other possibilities for totally free compositions.

Paspartu Bookcase

A bookcase with a through side panel, Paspartu is a furniture item designed to bring airiness and elegance to a room. Side panels, back panels and glass shelves allow it to be fitted to the wall or used as a partition and its transparency is made even more evocative by internal LED illumination.

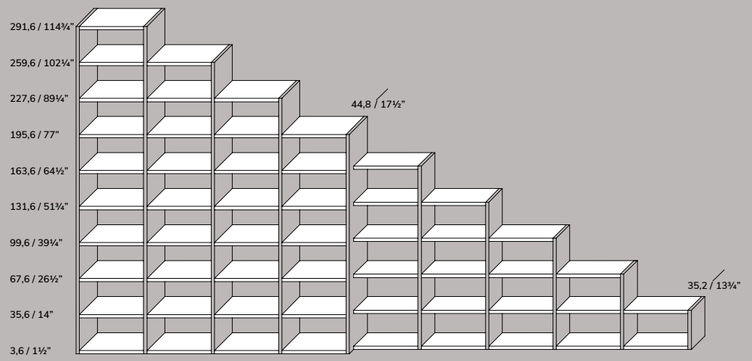
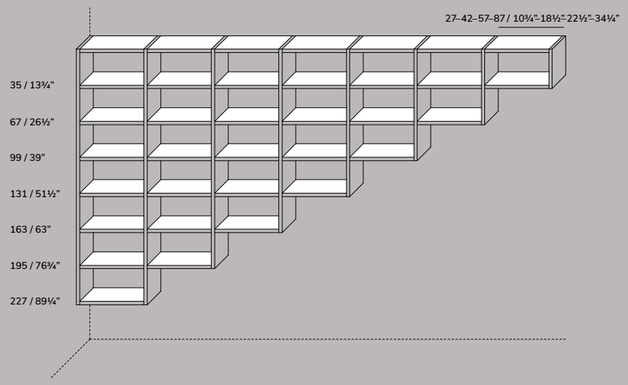
Logiko Bookcase

Floor-standing bookcase



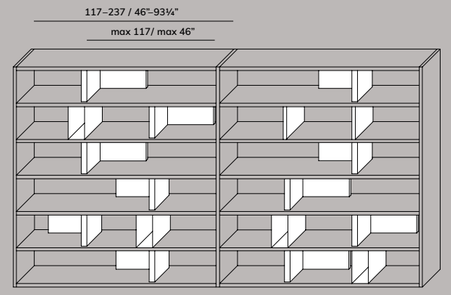
The bookcase version as a simple set of shelves on a load-bearing side panel, available in two depths of 352 and 448 mm, with 30 mm thick side panels and shelves. Enhanced by Raster systems, showcases and illuminated details. Several types of fronts: drawers, deep drawers, drop down or hinged doors in wood, lacquered, and metal or clay finish lacquered. Lacquered or glass sliding doors.

Hanging bookcase



The wall fitted bookcase has the same technical and aesthetic characteristics as the floor-standing one, and completes the side panel system, integrating perfectly with TV panels, fitted elements and sliding doors.

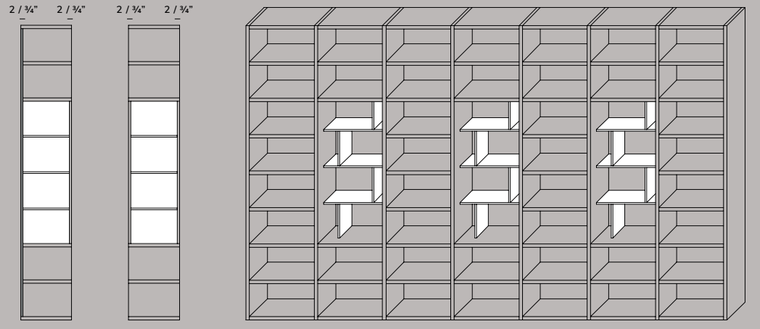
Horizontal bookcase



A horizontal bookcase system with shelves of widths up to 2.37 metres, without the need for added side panels, supported by lightweight, L-shaped vertical elements or metal spacers, for new décor concepts.

Logiko bookcase accessories

Elementi Raster / Raster elements

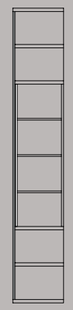


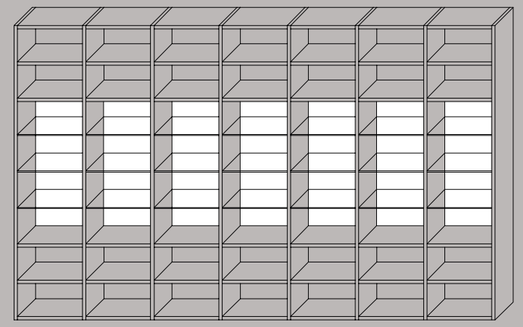
15 mm thick bookcase Rasters are used to subdivide the areas between shelves and create new dimensions. Available in the standard widths of the bookcase, they can be inserted into floor-standing or wall fitted units. Heights are the same as the bookcase modules from 610 mm to 1890 mm.

Bookcases

Logiko bookcase accessories

Mirror Back

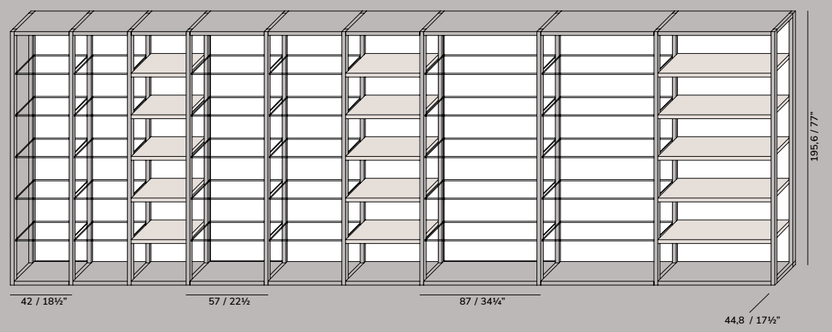




The back panels for the bookcase with glass doors can be enhanced with mirrors fixed directly to the wooden panel.
This and the use of glass shelves gives depth to the composition and highlights the contents of the showcase.

Paspartu bookcase

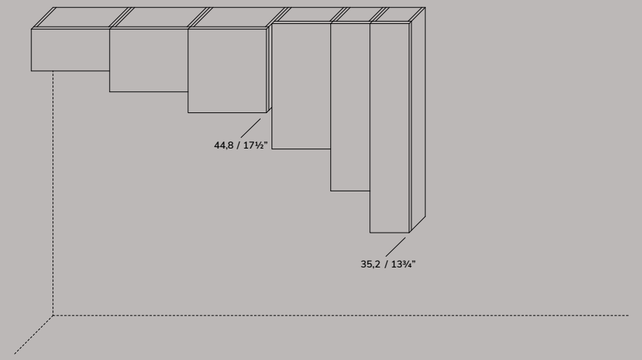
Through side panel system
bookcase



The floor-standing bookcase has an aluminium structure and through side panels enhanced by framed glass doors. The side panels, back panels and glass shelves create a transparent effect, making Paspartu ideal as a partition element or wall fitted bookcase. Transparency and internal LED lights provide new, elegant styling.

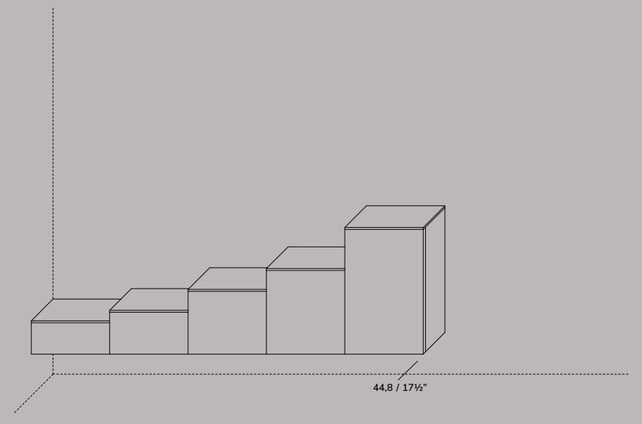
Logiko Elements

Hanging elements



Wall fitted storage units in six heights, 320, 480, 640, 960, 1280 and 1600 mm, finished on four sides, without the need for an added top.
Available in two depths with a wide choice of fronts: wooden doors in two thicknesses or drop down doors, also in glass with Telaio frame
or elegant Paspartu profile.

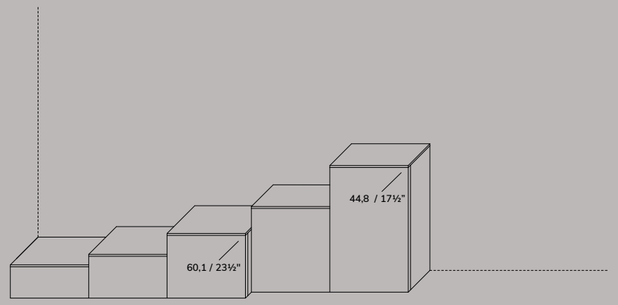
Low-hanging elements



Suspended storage units in five heights, 240, 320, 480, 640 and 960 mm and a depth of 448, finished with a 15 or 30 mm
wooden top or 6mm glass top; besides wooden doors and Telaio or Paspartu glass doors, the range includes
drawers, deep or drop down drawers, which can be mixed to adapt to any composition.

Logiko Elements

Floor-standing elements

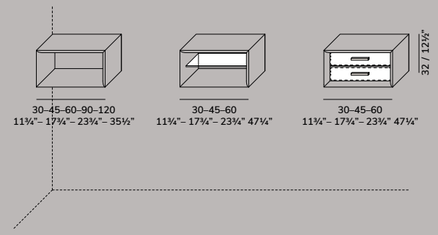


Floor-standing storage units in five heights, 240, 320, 480, 640 and 960 mm and two depths of 448 and 601 mm; can be finished with wooden or glass tops or 20 mm polished or brushed marble tops. The range includes Oliver, Aussie, Plume, Trek or Plexiglass base units, for compositions to meet all needs, also with free standing solutions.

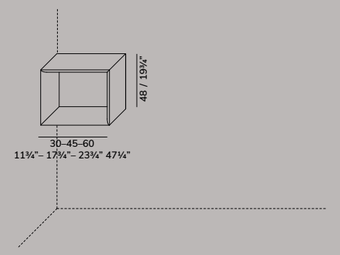
Contigo System

Hanging elements

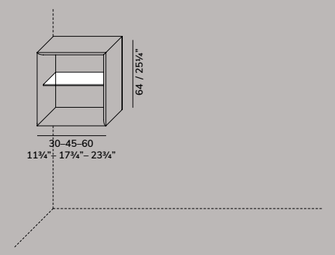
Elements D 13 3/4''–18 1/2'' H 12 1/2''



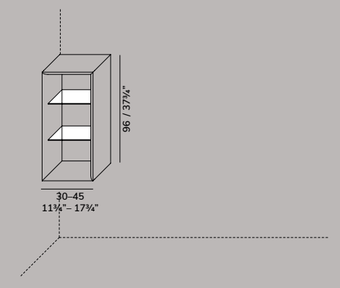
Elements D 13 3/4''–18 1/2'' H 19 3/4''



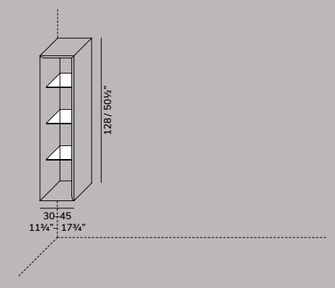
Elements D 13 3/4''–18 1/2'' H 25 1/4''



Elements D 13 3/4''–18 1/2'' H 37 3/4''



Elements D 13 3/4''–18 1/2'' H 50 1/2''

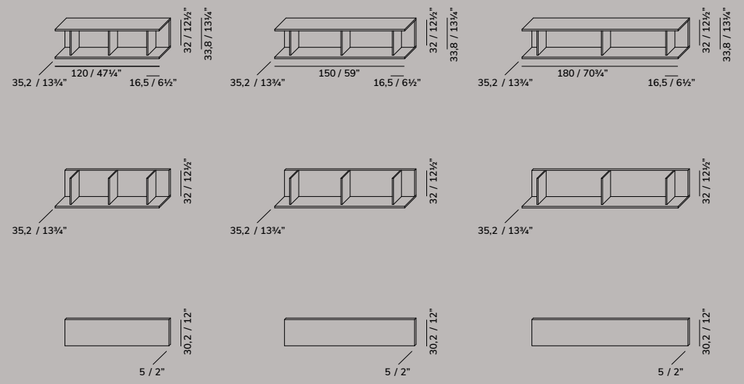


The Contigo system was created as a natural complement to living room elements. The 45° cut structure and front edges are specially worked to create a lighter effect. The system includes back-lit glass shelves or mirror back panels and can be completed with drawers with eco-leather fronts, inserted individually or in pairs.

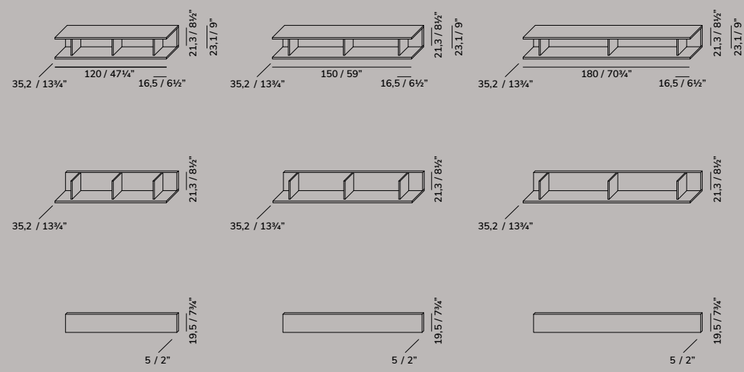
Holdy System

Hanging Elements

“C” and “L” elements, dimension H 12 1/2”



“C” and “L” elements, dimension H 8 1/2”

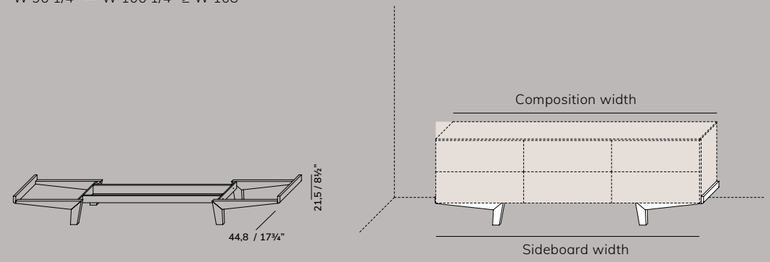


18 mm thick shelves are the project’s main element. Doors slide on a track perfectly integrated into the shelves. The sliding system is designed to avoid contact between surfaces, ensuring silence and stunning good looks.

Baseboards

Aussie sideboard

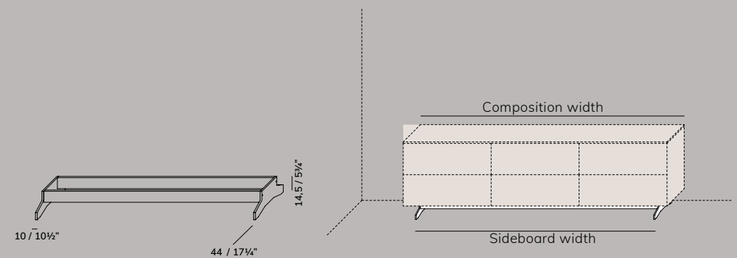
Composition width ≥ Sideboard width:
W 70 3/4'' ≥ W 72 3/4'' — W 82 3/4'' ≥ W 84 1/2'' W 94 1/2'' ≥
W 96 1/4'' — W 106 1/4'' ≥ W 108''



The Aussie base unit features solid wood legs that give definite character to compositions; the construction acquires force by means of the elegant Brown painted metal crosspiece, which can also house the LED illumination system.

Oliver sideboard

Composition width ≥ Sideboard width:
W 47 1/4'' ≥ W 35 1/2'' — W 59'' ≥ W 47 1/4'' — W 70 3/4'' ≥W 59'' — W 82 3/4'' ≥ W 70 3/4''
W 94 1/2'' ≥ W 82 3/4'' — W 106 1/4'' ≥ W 94 1/2'' — W 118'' ≥ W 106 1/4''

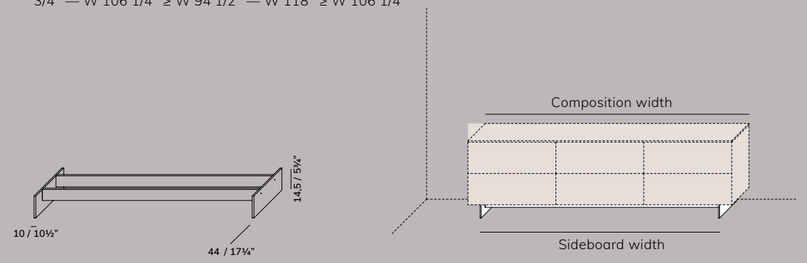


The Oliver base unit is raised from the ground by two Brown metal finish feet that match the same metal structure of the other base units, providing an elegant, airy touch. The Oliver base unit can house LED illumination, also available with a remote control.

Sideboards

Plexiglass sideboard

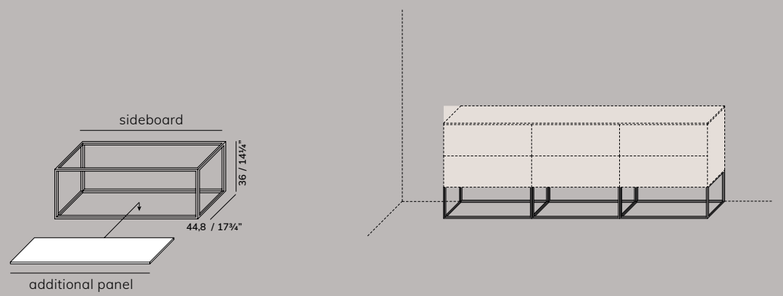
Composition width ≥ Sideboard width:
W 47 1/4'' ≥ W 35 1/2'' — W 59'' ≥ W 47 1/4'' — W 70 3/4'' ≥ W 59'' — W 82 3/4'' ≥ W 70 3/4'' W 94 1/2'' ≥ W 82 3/4'' — W 106 1/4'' ≥ W 94 1/2'' — W 118'' ≥ W 106 1/4''



The Plexiglass base unit is designed as a free standing solution whose load-bearing structure is not evident. The feet are made of a block of extra clear plexiglass which gives a floating effect. The Plexiglass base unit is also available with LED illumination that appears to extend the distance from the ground.

Plume sideboard

Sideboard width: W 23 3/4'' — W 35 1/2'' — W 47 1/4''
Additional panel width: W 23 3/4'' — W 35 1/2'' — W 47 1/4''

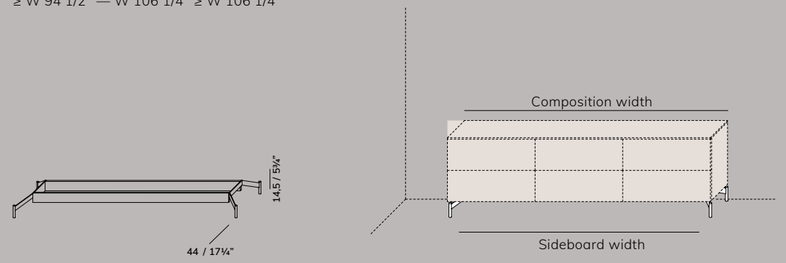


The Plume base unit with its Brown metal frame is a solution with elements raised up to 360mm from the ground.
The lower space can be used to add practical lacquered or wooden shelves for objects that can be LED illuminated.

Beds

Trek sideboard

Composition width ≥ Sideboard width:
W 47 1/4'' ≥ W 47 1/4'' — W 59'' ≥ W 59'' — W 70 3/4'' ≥ W 70 3/4'' — W 82 3/4'' ≥ W 82 3/4'' W 94 1/2'' ≥ W 94 1/2'' — W 106 1/4'' ≥ W 106 1/4''



The Trek sideboard is characterized by tubular metal feet in Brown fi nish, positioned at the ends of the composition.
The Trek sideboard unit can house LED illumination, also available with a remote control.

Finishes

Lacquers

Rovere Lavagna

Finishes

Lacquers

Lacquered metal panels are finished with 8 to 10 layers strictly hand applied by skilled artisans. The feel of the texture is homogeneous and the shaded effect makes every panel unique. The lacquered metal finish has excellent resistance to abrasions, scratches and stains.

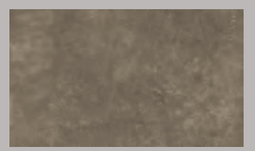
Oro

Piombo

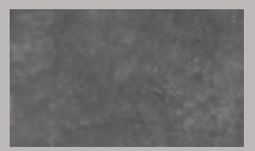
Bronzo

Clay

The special fi nish on this surface is strictly hand applied to composite panels by skilled artisans. Once the basic surface, made of natural materials such as quartz powder and pure, salt-free mineral sand with controlled granulometry, is dry, a number of layers of transparent acrylic coating are applied: this protects the surface from grease and dirt.



Oro



Piombo

Marglass

Krieder proposes the advanced technology of Marglas, one of its furniture components; this is an innovative material made with top quality substances and cutting edge technologies. Large, slim sheets exalt essential, contemporary design with an outstanding, versatile material that is particularly hard wearing.
